

BRIGHT BEGINNINGS

PRE-SCHOOL EDUCATION FUND

Managed by Asia Center Foundation

HISTORY

Founded in 2001 in Phuket, Thailand, Asia Center Foundation (ACF) has spent 24 years providing disadvantaged Thai and Burmese children with access to education opportunities which are unavailable to them due to numerous factors out of their control. ACF especially focus on providing early childhood education in a safe day-to-day environment to at-risk and disadvantaged children ensuring they receive the stimulation and access to development they require to prepare them for primary school. We develop long-term relationships with families whose children attend our education programs ensuring that children can continue their education with the help of sponsorship.

Cornerstone Education Center operates since 2019 from ACF's newly built education facilities in Kathu and provides education to up to 50 students every year.

In 2027, ACF will celebrate 25 years of unwavering commitment - rewriting children's futures into stories of hope and new possibilities.

WHY FOCUS ON EARLY CHILDHOOD EDUCATION?

ACF focus on addressing the unmet needs of disadvantaged Thai and Burmese children through a play-based early childhood education program for children from age 4-6 years old. Play-based learning supports creativity, social skills, problem-solving, emotional regulation and language development, areas which often are neglected in disadvantaged families.

Parents from low income families often have not completed high levels of education themselves and are not able to provide the necessary stimulation or educational support required to their children, or lack financial resources to pay for pre-school education. It is essential for children to have access to pre-school education in order to ensure the cycle of poverty will be broken.

WHO QUALIFIES FOR EDUCATION AT CORNERSTONE EDUCATION CENTER?

ACF provides assistance to families in the following circumstances:

- Single parent families
- Aged care givers (unemployed grand parents)
- Families with a family member in prison
- Children from unsafe home environments
- Low income families with low skills

WHY IS SPONSORSHIP REQUIRED?

ACF provides free pre-school education to families with difficult financial situations. Lack of skills results in irregular employment and low day to day household income, therefore families are not able to afford the costs involved in Government pre-schools. Pre-school education is not compulsory in Thailand, but sending a child to attend pre-school often helps the second parent to find employment which then can help release the financial burdens of the family.

ACF has lost support from a major start-up donor who changed focus. Loss in income affects our ability to continue to provide this service to the community.

Sponsorship helps to ease the financial pressure on the project and ensures that ACF can continue to provide disadvantaged children with the care, education and development opportunities they require to be prepared for the next phase of education they will face.
